Software tester with hands-on experience validating UI/UX and functionality for industry-leading creative tools. Skilled in end-to-end testing, defect tracking, and cross-functional collaboration to ensure high-quality releases. Focused on delivering seamless user experiences across web and mobile platforms in the digital design domain.

INDUSTRIES: Multimedia, Human Resource Management System

TECHNICAL SKILLS

• Manual Testing	2 years & 4 months
• Web Testing	2 years & 4 months
• Jira	2 years & 4 months
• Test rail	2 years & 4 months
• Selenium	2 years
• Mobile Testing	2 years & 4 months

PROJECT DETAILS

• Adobe Illustrator

Project Description: Served as a software tester for Adobe Illustrator, industry-standard vector graphics software used to create logos, icons, illustrations, complex drawings, and more. It allows for professional-level precision, offers time-saving features, and ensures graphics remain crisp and high-quality at any size due to its vector based nature.

Responsibilities: UI/UX Testing: Conducted end-to-end testing for new UI/UX enhancements to ensure a seamless and user-friendly experience across mobile and web platforms. Functionality & Performance Validation: Verified application functionality, responsiveness, and performance post-UI revamp. Defect Identification & Resolution: Identified, reported, and collaborated with developers to resolve UI/UX and functional defects. Cross-Team Collaboration: Worked with designers, developers, and product teams to ensure smooth implementation of new features. Quality Assurance: Ensured high-quality releases by designing and executing test cases, validating business requirements, and conducting Sanity testing.

Technologies: JIRA, Google Sheet

Industry: Multimedia

• Carnival Support Services India

Project Description: Served as Quality Analyst for CSSI,Carnival Support Services India is the official recruitment agency for hiring Indian crew members for Carnival Cruise Lines. Located in Mumbai, CSSI has helped thousands of hospitality and technical professionals launch successful cruise careers. Worked closely with founders and design teams to define market-fit features, user roles, and business models. Led the development of the BRD, wireframes, and test cases, ensuring clarity in feature flow and user experience across all modules. The platform aimed to empower creative professionals through networking, job discovery, collaboration, and learning opportunities.

Responsibilities: Requirement Gathering & Documentation: Captured platform goals and user needs from stakeholders and documented them into detailed BRDs and wireframes. UI/UX Testing: Performed end-to-end testing of creative and business user flows, including sign-up, profile creation, project listings, messaging, and collaboration tools. Functionality & Performance Validation: Verified responsiveness, and platform usability during MVP release and beyond. Defect Identification & Resolution: Identified and logged functional and UI defects; collaborated with developers for resolution during agile sprints. Cross-Team Collaboration: Worked with designers, developers, and business stakeholders to align feature rollouts across Creatives, Business, and Admin dashboards. Quality Assurance: Created test plans, wrote and executed test cases, tracked defects, and ensured consistency in app logic across various user types and access levels.
