I am a Full Stack Developer with three years of experience focusing on Ruby on Rails and modern web application development. I have strong expertise in integrating external platforms, improving system reliability, and creating scalable solutions. My experience includes building Microsoft Teams bots, integrating LinkedIn for job automation, and implementing a two way Salesforce syncing process using webhooks. I have also deployed secure two factor authentication with Twilio. I work closely with teams to turn business requirements into clean and effective technical solutions.

INDUSTRIES: Education Technology EdTech, Technology

TECHNICAL SKILLS

• ROR	3 years
• Ruby	2 years
• JavaScript	2 years
• Angular js	10 months
• Salesforce	10 months

PROJECT DETAILS

• Omprakash — November-2024 - September-2025

Project Description: A platform for education, donations, and social engagement, integrating CRM tools, real-time notifications, and cloud storage to enhance user experience and data management.
Responsibilities: Managed the full project independently, integrated Salesforce for data synchronization, implemented new features, optimized performance using Sidekiq and AWS, and ensured smooth user communication.
Technologies: Ror, Angular js, Salesforce, Php, Active admin, MySql, AWS, S3, Sidekiq
Industry: Education Technology EdTech

• NXZ Sound — October-2023 - October-2024

Project Description: Developed an audio recognition platform leveraging ACR Cloud's API to identify music tracks based on user-uploaded audio samples. The system processed audio files, generated fingerprints, and matched them against a vast music database to return song metadata, enhancing user experience with seamless music discovery.
Responsibilities: Engineered backend services in Ruby on Rails to handle audio file uploads, integrated ACR Cloud's music recognition API for audio fingerprinting, and collaborated with frontend developers to ensure smooth user interactions.
Technologies: Ruby on Rails, JavaScript, ACR Cloud
Industry: Technology

EMPLOYMENT HISTORY

• Software Engineer

Description: Independently managed the entire project lifecycle and implemented new features based on evolving business requirements.

EDUCATION

• Bachelors degree in Computer Science from R.G.P.V — 2019 - 2023

LANGUAGES

• English - native
