Experienced Data Analyst with 4.7 years in focused work using BI tools like Power BI Desktop, Power Query, Power BI Service, DAX, SQL, Data Modeling, and Advanced Excel. Expertise includes developing effective reports and dashboards, integrating data from multiple sources, and enhancing data quality. Skilled in writing complex DAX formulas and experienced in extracting, transforming, and loading data using Power Query and SQL. Successfully managed projects in diverse domains such as healthcare and banking, demonstrating the ability to gather requirements, present analyses, and implement best practices in visualization techniques.

INDUSTRIES: hitachi, humana

TECHNICAL SKILLS

• Power BI Desktop	4 years & 6 months
• SQL	4 years & 5 months
• power bi service	4 years & 6 months
• DAX	4 years & 5 months
• Data Modelling	4 years & 5 months

PROJECT DETAILS

• hiatchi August-2025 - October-2025

Project Description: perforamce optimcaztion and dat modelling changes
Responsibilities: Built scalable dashboards (Forecast Display, Demand vs Staffing, Resource View) providing workforce visibility across global units. Integrated SQL Server, SharePoint, and Excel data to unify capacity and demand planning. Developed advanced DAX measures for Total Hours, Cost, Utilization, and Margin metrics. Applied performance tuning with DAX Studio to reduce refresh latency. Set automated refresh pipelines and ensured regional data synchronization.
Technologies: power bi,sharepoint ,excel
Industry: hitachi

• insurance

Project Description: Designed interactive dashboards to track claims, enrollments, and customer behavior.
Responsibilities: Collaborated with stakeholders to translate analytics needs into technical specifications.
Technologies: powerbi , sql, tableau
Industry: humana

EMPLOYMENT HISTORY

• Data Analyst August-2025 - October-2025

Description: Partnered with PMO and business leads to translate capacity planning requirements into measurable BI KPIs. Architected unified semantic models integrating multiple data sources under consistent business rules. Delivered executive dashboards for capacity, workload, and forecasting visualization. Authored optimized DAX formulas calculating utilization, cost, and variance metrics. Implemented refresh automation, version control, and governance frameworks. Ensured compliance by defining role-based access and data sensitivity controls. Conducted performance optimization and dashboard efficiency tuning 65%. Provided user documentation and facilitated stakeholder training sessions.

• Power BI Developer Data Analyst January-2021 - August-2025

movate technologies

Description: Experienced Data Analyst with 4.7 years in focused work using BI tools like Power BI Desktop, Power Query, Power BI Service, DAX, SQL, Data Modeling, and Advanced Excel. Hands on experience on Power BI Desktop and Power BI Service. Development and worked on Creating Reports & Dashboards. Developed effective Reports & Dashboards and Worked on existing dashboards and done enhancements as per the Clients Requirement. Designed Data Modeling and Maintained relationships between data using different Joins. Determined business critical priorities and their requirements including financial, expenditure, revenue, sales, customer products data. Integrated data from multiple sources into Paginated reports. Writing reports to share knowledge gained from the complied data. Cleaning the data and improving the data quality by removing duplicates, errors, or outliers. Skilled in writing complex DAX formulas to derive meaningful insights from raw data. Experience in extracting, transforming, and loading data from diverse sources using Power Query, SQL, and other data integration tools. Familiarity with integrating Power BI with various data sources such as Excel, SharePoint, SQL Server, and cloud platforms like Azure. Experienced in creation of Appending and Merging Queries. Published and Shared Reports into Power BI Service. Installing & Configuring a Gateway Connectivity and giving Access to On-Premises data Gateway. Experienced in deployment and Scheduling Refresh. Experienced on SQL queries relevant to Power BI. Top 5 key skills: Power BI Desktop,Power Query,Power BI Report Server,Dax,SQL,Data Modeling,Advanced Excel

CERTIFICATION

• Ramkumar V by 0

EDUCATION

• Bachelors degree in mechanical engineering from kcg s college of technology 2016 - 2020

LANGUAGES

• English - advanced
