I am an AWS DevOps Engineer Intern based in Guntur with hands-on experience working on real-time DevOps projects. I completed my B.Tech in Civil Engineering in 2021 and spent three years preparing for UPSC, which strengthened my discipline, analytical thinking, and problem-solving abilities. Over the past year, I shifted my focus to DevOps and built strong technical skills through practical learning and project-based work. I hold certifications from IBM and StarAgile, further validating my knowledge in cloud technologies and DevOps practices. My experience includes working with CI/CD pipelines, automation, and AWS cloud services. I am passionate about continuous learning and excited to grow my career in DevOps with challenging real-world opportunities.

INDUSTRIES: Banking and Finance, Health care
