I am a Senior Software Engineer based in Hyderabad with strong expertise in Angular, React, and modern JavaScript/TypeScript. I have extensive experience building scalable, user-friendly, and high-performance web applications. My work focuses on clean architecture, efficient state management, and delivering seamless user experiences. I am skilled in optimizing frontend performance, writing maintainable code, and implementing best UI/UX practices. I collaborate closely with teams to transform ideas into intuitive digital products. With a passion for continuous learning, I stay updated with modern frontend technologies and industry standards. I aim to contribute to impactful projects where quality and innovation are key.
