I am a Senior Consultant based in Hyderabad with extensive experience developing complex, high-quality code and supporting pre- and post-launch activities. I specialize in designing scalable solutions for both production issues and project requirements. My expertise includes implementing robust coding standards and creating efficient, maintainable systems. I am passionate about problem-solving and ensuring smooth project execution across all levels of complexity. With certifications in SAFe Scrum, I aspire to take on managerial responsibilities and lead teams effectively. I enjoy collaborating with cross-functional teams to deliver reliable, high-performance software solutions. I am committed to continuous learning and driving innovation in every project I undertake.
