EMPLOYMENT HISTORY

• Team Lead Mobile August-2023 - July-2025

Description: At InvoZone, I played a key role in building Skin & Wound 2, an AI-powered mobile app for Swift Medical designed to assist clinicians in precise wound assessment and documentation. I led the implementation of core features — including seamless, touchless imaging for wound measurements (length, width, depth, area) and integration with enterprise-grade dashboards. I optimized interactions with third-party APIs and implemented secure, FHIR-compliant data exchange to support interoperability with EMR systems. Working within an Agile team, I focused on improving image capture performance, UI responsiveness, and overall stability, contributing to faster, standardized wound assessments used by healthcare providers

• Team Lead Flutter March-2022 - October-2023

OptimusFox

Description: At OptimusFox, I led a team of Flutter developers, overseeing the full lifecycle of mobile application development. I worked closely with stakeholders to define project requirements and ensured delivery through Agile methodologies. My responsibilities included architecting solutions using Clean Architecture and TDD, mentoring developers, and conducting code reviews to uphold quality standards.

EDUCATION

• Bachelors degree in Computer Science from University of Engineering and Technology 2017 - 2021

LANGUAGES

• English - advanced
