Passionate Full Stack Developer with 3+ years of experience specializing in Ruby on Rails and JavaScript. Skilled in building scalable, secure, and maintainable web applications. Experienced in developing end-to-end solutions with clean architecture and efficient backend logic. Focused on delivering seamless user experiences across devices and platforms. Strong understanding of API development, database management, and performance optimization. Known for writing clean code, problem-solving, and adapting to new technologies quickly. Driven by a passion for continuous learning and building impactful digital products.

INDUSTRIES: Mentall Wellnes, EV Charging

TECHNICAL SKILLS

• Ruby	4 years
• Ruby On Rails with TDD and BDD	4 years
• RSpec	4 years
• Git	4 years
• PostgreSQL	4 years
• AWS	3 years
• React	2 years
• Docker	2 years
• CI CD Pipeline	1 years

PROJECT DETAILS

• BrainTap LLC — February-2023 - June-2024

Project Description: Braintap is a comprehensive web application designed to enhance mental well-being and personal development by providing tailored meditation, relaxation, and mindfulness programs. Built with a scalable and robust architecture, the platform leverages cutting-edge technologies to deliver a seamless user experience across multiple devices.

Responsibilities: Implemented secure authentication and authorization systems for user registration, profile management, and role-based access control. Developed modules to serve a diverse library of audio-visual content, including guided meditations, brainwave training sessions, and personalized playlists. Designed interactive dashboards for users to track progress, manage sessions, and receive personalized recommendations. Wrote efficient, clean, and maintainable code adhering to Ruby on Rails best practices.

Technologies: Ruby, Rails, Js, React, CI/CD, AWS

Industry: Mentall Wellnes

• Voltup LLC

Project Description: VoltUp LLC is a leading provider of innovative battery-swapping solutions, catering to various categories of electric vehicles (EVs).

Responsibilities: The platform empowers EV charging station operators by delivering efficient, scalable, and user-friendly solutions for seamless battery swapping and management. Contributed to the development of a reliable and scalable platform that facilitated seamless battery-swapping operations, helping VoltUp LLC drive the adoption of electric vehicles and revolutionize EV infrastructure

Technologies: Html, CSS, React, Stimulus JavaScript, Ruby on Rails, Ruby, Bootstrap

Industry: EV Charging

EMPLOYMENT HISTORY

• Ruby on rails developer January-2021 - August-2025

Description: Developed and maintained core backend functionalities using Ruby on Rails, ensuring scalability and maintainability. Designed and optimized database schemas in PostgreSQL for efficient storage and retrieval of content. Integrated Hotwire and Stimulus JS for real-time updates and interactive UI components, enhancing user engagement. Conducted thorough testing using RSpec and Minitest to ensure code reliability and application stability.Successfully delivered a user-friendly platform that increased user retention through interactive and bite-sized content delivery.Enhanced search functionality by integrating ElasticSearch, enabling users to quickly find relevant content.

EDUCATION

• Bachelors degree in CSE from RGPV University 2016 - 2020

LANGUAGES

• English - advanced
