Full-stack developer with hands-on experience in building web and mobile applications using modern frameworks and technologies. Skilled in MEAN/MERN stack with strong expertise in React, Next.js, React Native, Ionic 4/5, Angular, Vue.js, Electron.js, JavaScript, and API integrations. Proficient in backend development using Node.js, NestJS, Python, Firebase, and MongoDB. Adept at delivering scalable, high-performance applications across platforms with a focus on clean architecture and seamless user experience.

INDUSTRIES: Management Software, product

TECHNICAL SKILLS

• Web App Development	6 years
• MERN MEAN	6 years
• React Hooks	5 years
• React	5 years
• React Native	5 years
• JavaScript ES6	5 years
• HTML	5 years
• CSS	5 years
• Mobile App Development	5 years
• Git	4 years
• Express	4 years
• Node js	4 years
• Vue JS	4 years
• CircleCI	4 years
• Responsive Web Design	4 years
• Angular 2+	4 years
• EC2	4 years
• Ionic	4 years
• MongoDB	3 years
• AWS	3 years
• React Query	3 years
• S3	3 years
• Firebase	3 years
• Android	3 years
• iOS	3 years
• CICD Automation	3 years
• Team Collaboration	3 years
• Flutter	1 years & 6 months

PROJECT DETAILS

• HRMS mobile app January-2019 - January-2023

Project Description: 1. Developed web applications using React, NodeJS and MongoDB 2. Built and deployed hybrid applications to App store and Play Store 3. Built vehicle booking system with integrated Audio and Video calling functionality (Agora service) 4. Developed employee management hybrid app using Ionic and NodeJS 5. Developed single-page applications using Angular and RESTful services with Node.js. 6. Enhanced legacy apps for performance and SEO, improving Google Lighthouse scores by 60%. 7. Participated in product planning and requirement gathering with cross-functional teams.
Responsibilities: Participate in daily standups and planning Review peer code Document technical decisions Communicate progress and blockers Work with other team members Monitor system health Fix bugs and issues Update dependencies Optimize performance Provide technical support
Technologies: React Native, Nodejs
Industry: Management Software

• Dashboard September-2016 - January-2019

Project Description: Project Name: Machine Monitoring Dashboard Purpose: Real-time monitoring and analytics of machine performance Target Users: Machine operators, supervisors, maintenance teams 1. Developed responsive dashboard and web application using HTML/CSS/JavaScript 2. Built the front-end of application through appealing visual design 3. Testing software to ensure responsiveness and efficiency 4. Troubleshoot, debug and upgrade software
Responsibilities: Write clean, efficient code for frontend and backend Implement real-time dashboard features Create responsive UI components Develop and maintain APIs Handle database operations
Technologies: NodeJS,Angular,HTML,CSS
Industry: product

EMPLOYMENT HISTORY

• Senior Full Stack Developer February-2020 - August-2025

Description: 1. Developed scalable web and mobile apps using React Native, React 2. Built backend services using NodeJS, NestJS, integrating complex business logic with MongoDB. 3. Migrated legacy AngularJS apps to Angular 14+, improving performance and maintainability. 4. Created SSR and static websites using Next.js, enhancing SEO and initial load time. 5. Built and deployed cross-platform mobile applications using React Native, delivering feature parity across Android and iOS platforms and maintaining over 95% crash-free sessions. 6. Led a small team of 4 developers, mentored juniors, and managed code reviews and deployment pipelines. 7. Wrote unit and integration tests using Jest and Playwright, increasing overall test coverage to 85%. 8. Created a component-driven UI system to streamline frontend development across teams, enhancing design consistency and reusability.

EDUCATION

• Bachelors degree in Computer from Pune 2011 - 2015

LANGUAGES

• English - native
