+91 9820045154 | hr@augmntx.com

Passionate Java Developer with hands-on experience in building scalable and efficient applications. Skilled in Java, Spring, and related backend technologies with a strong focus on clean architecture and performance. Eager to take on new challenges and continuously learn emerging tools and frameworks. Adept at problem-solving and contributing to high-quality software solutions. Collaborates effectively with teams to deliver robust and maintainable systems. Driven by innovation and committed to creating impactful, user-centric applications. Highly motivated, adaptable, and enthusiastic about contributing to new projects and ideas.

INDUSTRIES: Logistics and Supply Chain, IT services, Web Development, Productivity

TECHNICAL SKILLS

• Java	4 years
• Spring Boot	4 years
• REST APIs	3 years & 6 months
• ORACLE Database.	3 years
• Hibernate ORM	3 years
• Microservices	2 years
• Kafka	3 months

SOFT SKILLS

Problem Solving, Time management

PROJECT DETAILS

• Carrier Integration Service — May-2025 - June-2025

Project Description: Build carrier integration services for logistics platform to streamline shipping data exchange.
Responsibilities: Mapped external carrier responses (Amazon, Flipkart, etc.) into Shipium's standardized format, ensuring seamless data flow. Developed robust transformation logic in Java for field-level mapping, improving integration accuracy by 60%. Collaborated closely with API teams to ensure consistent schema alignment across all partner carriers.
Technologies: Java, SpringBoot, Hibernate, REST API,Docker, HTML
Industry: Logistics and Supply Chain

• Helical Insight — June-2025 - July-2025

Project Description: Develop dynamic reporting components for big data analysis and visualization.
Responsibilities: Built interactive components in Jasper Reports (tables, crosstabs, charts, and custom visualizations) to support flexible reporting. Implemented dynamic Java integration, enabling users to select and render report components at runtime. Enhanced reporting usability by modularizing components, allowing seamless addition and customization without code changes.
Technologies: Java, Jaspersoft Studio, SpringBoot, Hibernate, REST API, HTML
Industry: IT services

• Airgo June-2021 - July-2022

Project Description: To create an application to facilitate easy and affordable air booking using Spring Core, Spring Data JPA, and Spring MVC with MySQL database.

Responsibilities: Successfully developed a REST API using Postman as the client, connecting to a database with Hibernate and Java, resulting in a 25% increase in data retrieval speed and reducing response times by 15%. Designed and developed a responsive webpage using HTML, CSS, and Bootstrap enhancing user engagement by 35% and reducing page load times by 20%

Technologies: Spring Boot, Java, MySQL, Spring cloud tool

Industry: Web Development

• Dairygold May-2023 - December-2024

Project Description: To develop MSCA/Non MSCA applications for users, focusing on interface creation, forms, and mobile screens such as shipping and label generation.

Responsibilities: Developed and maintained web applications using Spring Boot, creating and managing RESTful APIs, which increased API efficiency by 30% and reduced downtime by 25%. Implemented Oracle database interactions using Hibernate, ensuring seamless data persistence and improving database access speed by 20%. Designed and deployed a microservices architecture, leveraging Netflix Eureka for service discovery and registration, resulting in a 40% improvement in system scalability and reliability. Developed complex PLSQL queries to ensure robust database connectivity and performance, reducing query execution time by 35%.

Technologies: Spring Boot, Java, Microservices, Oracle SQL, Spring cloud tool

Industry: Productivity

EMPLOYMENT HISTORY

• Product Engineer June-2025 - July-2025

Description: Worked on internal software development project utilizing JasperReports, Java/Spring Boot

• Java Developer April-2025 - June-2025

Scalex Technologies

Description: Contributed to software development project using Java, Spring Boot, REST APIs

CERTIFICATION

• Node.js by Coding Ninjas 2023

• Java by Coding Ninjas 2022

EDUCATION

• Bachelors degree in Computer Science from Shri Ramdeobaba University 2016 - 2020

LANGUAGES

• English - advanced
