Senior iOS Developer with over 10 years of experience in iOS/iPad and Cross platform application development using Swift, SwiftUI, Objective C, Flutter and Reactnative. Experienced in building high performance applications for iPhone, iPad and Android platforms. Skilled across the complete app development lifecycle including requirement analysis, UI and UX implementation, development, testing, deployment, and App Store submission using Agile and Waterfall methodologies. Core Skills and Expertise: Languages: Swift, Objective C, SwiftUI, Dart, React Native Architectures: MVVM, MVC UI and UX: UIKit, Storyboards, Auto Layout, Xcode, Figma, SwiftUI and AI Tools APIs and Integration: REST APIs, JSON, WebSocket, Socket IO, AWS Third Party Libraries: Alamofire, AFNetworking, Firebase, Crashlytics, Facebook Analytics, Singular Push Notifications: APNS, Firebase Cloud Messaging, OneSignal Location Services: MapKit, Google Maps, Core Location Payments and In App Purchases: Razorpay, PhonePe, Apple In App Purchase Database: Realm Database App Distribution: TestFlight, App Store Connect, Apple Developer Portal Social SDKs: Facebook, Twitter, Google Sign In Career Highlights: Delivered more than 25 iOS projects including product based and freelance applications with on time delivery. Published multiple applications on the Apple App Store. Built reusable UI components and scalable codebases following modern iOS development practices. Strong communicator and continuous learner, staying updated with the latest Apple technologies. Open to freelance, remote, or full time opportunities. Let us connect and build something impactful together

INDUSTRIES: Entertainment, Ecommerce, Social Media

TECHNICAL SKILLS

• Swift	7 years
• Objective C	5 years
• SwiftUI	1 years
• Flutter & Dart	1 years
• React Native	1 years

SOFT SKILLS

Communication, Teamwork, Problem-solving, Critical thinking, Time management

PROJECT DETAILS

• Vandlur Zoo September-2025 - October-2025

Project Description: Arignar Anna Zoological Park is one of the modern and scientifically managed zoos spread over an area of 602 hectares (1,490 acres), including a 92.45-hectare (228.4-acre) rescue and rehabilitation centre, the park is the largest zoological park of the country located at Vandalur
Responsibilities: Developed and maintained apps using Swift/React Native.Integrated APIs and implemented MVVM architecture.Optimized app performance and fixed production issues.Collaborated with cross-functional teams.
Technologies: Swift/ReactNative
Industry: Entertainment

• Village Meat August-2025 - December-2025

Project Description: Village Meat is a hyper local e commerce application that allows users to order fresh meat online and receive free delivery within 60 minutes. The app connects nearby meat vendors with customers to ensure quick service, quality products, and convenient doorstep delivery.

Responsibilities: Develop and maintain iOS/Flutter applications. Collaborate with cross functional teams to gather project and UI requirements. Implement complete application functionality within timelines and deliver high quality solutions to clients. Write clean, efficient, and maintainable code following iOS best practices.

Technologies: Swift/Flutter

Industry: Ecommerce

• VojVoj July-2021 - December-2024

Project Description: VojVoj is a creator-first platform where anyone can earn from day one. Creators share content, connect with their audience, and get paid when their work brings value. There are no ads, no algorithms controlling visibility, and no meaningless likes. Just a transparent system that rewards creation and connection. Build your community. Own your earnings. Start creating on VojVoj.

Responsibilities: Design, develop, and maintain iOS applications using Swift and SwiftUI / UIKit. Implement clean, scalable, and maintainable code following MVVM / MVC architecture. Integrate RESTful APIs and handle JSON parsing and network layer implementation. Manage app state, data persistence using Core Data / UserDefaults / SQLite. Ensure high performance, responsiveness, and smooth UI/UX across iOS devices. Handle Auto Layout, adaptive UI, and device compatibility. Implement app features such as push notifications, deep linking, and background tasks. Write unit tests and perform debugging using Xcode, Instruments, and TestFlight. Collaborate with designers, backend developers, and product teams to deliver features. Follow App Store guidelines and manage app submission, updates, and releases. Identify and fix bugs, performance bottlenecks, and memory leaks. Use version control systems like Git for source code management.

Technologies: Swift

Industry: Social Media

EMPLOYMENT HISTORY

• Sr iOS developer September-2022 - December-2025

Description: • Design, develop, and maintain iOS applications using Swift and SwiftUI / UIKit. • Implement clean, scalable, and maintainable code following MVVM / MVC architecture. • Integrate RESTful APIs and handle JSON parsing and network layer implementation. • Manage app state, data persistence using Core Data / UserDefaults / SQLite. • Ensure high performance, responsiveness, and smooth UI/UX across iOS devices. • Handle Auto Layout, adaptive UI, and device compatibility. • Implement app features such as push notifications, deep linking, and background tasks. • Write unit tests and perform debugging using Xcode, Instruments, and TestFlight. • Collaborate with designers, backend developers, and product teams to deliver features. • Follow App Store guidelines and manage app submission, updates, and releases. • Identify and fix bugs, performance bottlenecks, and memory leaks. • Use version control systems like Git for source code management. • Participate in code reviews and contribute to continuous improvement.

• Sr iOS developer July-2021 - August-2022

Zenitus Technology

Description: • Developed and maintained iOS apps using Swift. • Integrated APIs and implemented MVVM architecture. • Optimized app performance and fixed production issues. • Collaborated with cross-functional teams.

• Sr iOS developer January-2020 - July-2021

Midroute Technologies

Description: Develop and maintain iOS and iPadOS applications. Collaborate with cross functional teams to gather project and UI requirements. Implement complete application functionality within timelines and deliver high quality solutions to clients. Write clean, efficient, and maintainable code following iOS best practices.

EDUCATION

• Bachelors degree in CSE from Karpagam University 2009 - 2012

LANGUAGES

• English - intermediate
