INDUSTRIES: Banking, Business Productivity

TECHNICAL SKILLS

• sales force	4 years
• sales cloud	4 years
• Lightning	4 years
• Apex	4 years
• Apex Class	3 years

PROJECT DETAILS

• Rakuten Insurance

Project Description: Created multiple Lightning Components, added CSS and Design Parameters that make the Lightning component

Responsibilities: Created multiple Lightning Components, added CSS and Design Parameters that make the Lightning component look and feel better. Leveraged APEX Controller to make a call for external requests to retrieve data from various APIs and display them on to the component. Minimized code in JavaScript Controllers by adding reusable functions in Helper Component. Implemented the requirements on Forcecom platform and Force.com IDE Plugin using Eclipse Created new User Accounts and assigned Profiles as per their role in role hierarchy. Worked on APEX Controllers Apex Triggers and Visual force Pages Developed various Custom Objects Tabs Components and Visual Force PagesDesignedand developed Apex Classes Controller Worked on SOSL and SOQL queries for various functional needs in the applicationCustomized Page layouts for Custom objects and assigned Record Types Created Data Validation rules and Formulas as per business requirement Created Workflow Rules to automate Tasks Email AlertsField Updatestime dependent actions. Created Reports and Dashboards to track milage and service dates. Created Email templates Approval Processes multistep Approval Processes as per the requirements and defined approval actions on them to automate the processes.

Technologies: Visual Force Pages, Visual Force Components & Controllers, Apex Classes, Apex Trigger, Batch Apex, Schedule Apex, Future method, SOSL, SOQL, Data Loader, Workflow Approvals, Reports, Dashboards, Batch Apex, Schedule Apex Custom Objects, Plug-in, Permissio

Industry: Banking

• Coca-Cola HCB

Project Description: Developed Apex Triggers Apex Classes and Test Methods and other queries Components Visualforce Pages to suit to the needs of the application

Responsibilities: Developed Salesforce.com workflow, rules and triggers using Apex for updating Users based on Location records. Developed Apex Triggers, Apex Classes and Test Methods and other queries. Implemented Lightning aura components for Quick actions and Record pages. Used Developer console and Visual studio code for development environment. Designed and deployed the Custom objects, Custom tabs, Entity-Relationship data model, validation rules, Workflow Rules, AutoResponse Rules, Page layouts, Components, Visualforce Pages to suit to the needs of the application. Defined lookup and masterdetail relationships on the objects and created junction objects to establish connectivity among objects. Upgraded some Apps from Salesforce Classic to Lightning Experience to develop rich user interface and better interaction of pages. Used SOQL with consideration to Governor Limits for data manipulation needs of the application using platform database objects. Implemented Salesforce.com reports as per business requirements. Used Data Loader for insert, update, and bulk import or export of data from Salesforce.com subjects. Used it to read, extract and load data from comma separated values CSV files.

Technologies: Visual Force Pages, Visual Force Components & Controllers, Apex Classes, Apex Trigger, Batch Apex, Schedule Apex, Future method, SOSL, SOQL, Data Loader, Workflow Approvals, Reports, Dashboards, Batch Apex, Schedule Apex Custom Objects, Plug-in, Permissio

Industry: Business Productivity

EDUCATION

• Bachelors degree in BTECH from ANNA UNIVERSITY 2016 - 2020

LANGUAGES

• English - native
