I am a Full Stack .NET Developer with over 10 years of experience in building scalable, secure, and high-performance web applications. Proficient in .NET Core, Angular, and SQL/NoSQL databases, I specialize in backend API development and frontend implementation. My approach focuses on detailed planning, clean code, and industry best practices to deliver robust solutions. Experienced in cloud services, third-party integrations, and Agile environments, I have a strong emphasis on performance optimization and on-time delivery. I am committed to continuous improvement and thrive in challenging projects. Currently seeking remote opportunities to contribute my technical expertise and leadership to impactful projects.

INDUSTRIES: Education Technology, iGaming, Healthcare IT

TECHNICAL SKILLS

• C#.NET	10 years
• MS SQL	7 years & 4 months
• JavaScript	7 years & 3 months
• Angular	4 years & 3 months
• Azure	4 years & 3 months

SOFT SKILLS

C#, .netcore, TypeScript,

PROJECT DETAILS

• Perdia Education

Project Description: GetEducated is a consumer group that publishes online college rankings and online university ratings along dimensions that matter mostly to online students themselves: affordability and credibility. It is America's first free online counselling centre. It provides unique tools that help consumers rate and compare more than 25,000 online degree programs.

Responsibilities: Developed and maintained user-friendly web apps with Angular, prioritizing usability. Managed server-side logic with .NET Core, implementing RESTful APIs for efficient communication. Optimized performance and conducted thorough testing for reliability. Integrated front-end with back-end services for end-to-end functionality. Led database schema design and troubleshooting for smooth operation.

Technologies: Angular, .NET CORE, .NET Core API, Entity Framework, Twilio, MongoDb, Mellisa API, AuthorizeDotNet, Zoom, OneSignal, DocuSign, GitFlow, REST API.

Industry: Education Technology

• Baum Bet

Project Description: Baum Bet is an online gambling platform based in Romania, offering over 350 slots and live table games like roulette and blackjack. It also features a sportsbook with baccarat, blackjack, sports betting, live/in-play betting, and more. Powered by leading providers such as Amati Industries, BF Games, Greentube, and others, it holds a valid license and provides information on minimum and maximum bets, deposits, and withdrawal limits on a daily, weekly, and monthly basis.

Responsibilities: Led project analysis, design, and coding phases for comprehensive execution. Supported stakeholders by promptly investigating defects, fixing bugs, and implementing enhancements. Provided effective solutions through code adjustments, data updates, or configuration modifications. Actively participated in daily scrum meetings, fostering collaboration and project alignment.Utilized Trello for efficient task assignment and tracking, streamlining project management.

Technologies: Angular, .NET CORE, .NET Core API, Entity Framework ,APCO Payment getaway, MS SQL Server RabbitMQ, GitFlow, REST API.

Industry: iGaming

• Corey Health Web App

Project Description: The Corey Health application empowers healthcare providers with a comprehensive suite of features, enabling them to efficiently schedule procedures, seamlessly complete clinical documentation, capture one-touch timestamps for accuracy, collaborate effectively with the care team, communicate with patients, and effortlessly view and update vital information.

Responsibilities: Collaborated on the Video Consultation module, ensuring project alignment. Actively participated in daily scrum meetings to address challenges and prioritize tasks. Used Azure DevOps for efficient task management and tracking. Supported stakeholders by promptly investigating defects and providing solutions. Played a key role in implementing bug fixes and enhancements for improved application quality.

Technologies: Angular, ASP.NET MVC, Entity Framework, jQuery, Ajax, SQL Server, Jistimeet, JavaScript, Bootstrap.

Industry: Healthcare IT

EMPLOYMENT HISTORY

• Lead Software Engineer, November-2022 - April-2024

Description: Developed and maintained user-friendly web apps with Angular, prioritizing usability. • Managed server-side logic with .NET Core, implementing RESTful APIs for efficient communication. • Optimized performance and conducted thorough testing for reliability. • Integrated front-end with back-end services for end-to-end functionality. • Led database schema design and troubleshooting for smooth operation.

CERTIFICATION

• Abhash Sinha by Bachelor Of Technology 2014

EDUCATION

• Bachelors degree in Bachelor Of Technology from West Bengal University Of Technology, 2010 - 2014

LANGUAGES

• English - advanced
