I am a full stack developer and I guide a team of 4 to 5 developers in delivering robust and scalable web solutions. I work across the stack using technologies like Dot Net Core, Angular 15, MongoDB, Redis, and Azure. I contribute to system design, ensure clean and maintainable code, and support the team in solving complex technical challenges. I also collaborate closely with clients to align technical solutions with business goals. Alongside development, I focus on mentoring team members and improving overall delivery efficiency. Having 6+ years of experience in web application development with Asp.net MVC, Asp.net Core (MVC, API) .NET technologies, TypeScript, Angular 2 To 13 (TypeScript-based development), React Experience of Analysis, Design, Development, Deployment and Testing. Strong experience building Angular applications using TypeScript, components, services, and REST API integrations. Ability to work on multiple projects of experience. Excellent Team player with good communications skills A focus on quality involves identifying best practices, technologies, tools, procedures& standards. Excellent experience in Programming and Developing Software Applications. Extensive experience in SQL Server Database maintenance, developing T-SQL queries, and stored procedures using MS SQL Server, Test Drive Development Experience in maintaining and enhancing existing/legacy .NET applications with focus on stability and performance. Strong experience in debugging complex production issues across UI, API, and database layers with minimal inputs. Exposure to working with Web Forms / WinForms-based components and understanding of event-driven architecture. Experience working with ambiguous requirements and directly collaborating with stakeholders to define solutions.

INDUSTRIES: Software

EMPLOYMENT HISTORY

• .NET Full Stack Developer February-2019 - April-2026

Description: As a.NET Full Stack Developer at Tridhya Tech, I've been entrusted with guiding our team towards success. I'm adept at working with new technologies such as Azure DevOps, Azure, Redis, MongoDB, .NET Core, and the latest Angular version 15. In addition to mastering these technologies, I've also taken on managerial responsibilities, overseeing a team of 4-5 individuals. Despite the challenges of managing multiple dedicated clients, I've successfully navigated through project complexities, ensuring timely delivery and client satisfaction. Moreover, I actively engage in conducting training sessions, imparting knowledge and skills to team members, thereby fostering their professional growth and enhancing our collective capabilities. As a proactive and dedicated leader, I remain committed to driving excellence within our team and delivering exceptional results for our clients.

EDUCATION

• Masters degree in IT from Ganpat University 2016 - 2018

LANGUAGES

• English - advanced
