He is a dedicated and growth-oriented professional known for his positive attitude, strong work ethic, and commitment to excellence. He possesses excellent communication skills and has the ability to adapt quickly to changing environments and responsibilities. With a passion for learning and continuous improvement, He consistently focuses on achieving both personal and professional goals. He is highly organized, detail-oriented, and capable of handling multiple tasks efficiently while maintaining quality standards. His problem-solving mindset and team collaboration skills help him contribute effectively in any workplace. He believes in building meaningful relationships and values honesty, discipline, and perseverance in life. He enjoys exploring new opportunities, gaining knowledge, and taking on challenges that help him grow. Outside of work, he likes spending time with family and friends, staying updated with current trends, and pursuing activities that enhance his creativity and overall personality development.

INDUSTRIES: IT Services Software

TECHNICAL SKILLS

• React	5 years & 5 months
• TypeScript	5 years & 2 months
• Azure AI services	5 years & 3 months
• Flask	5 years & 2 months
• UPA Base	5 years & 3 months
• Python	5 years & 6 months
• Static Web App	5 years & 2 months
• Pandas	4 years & 2 months
• Foundry	4 years & 5 months

SOFT SKILLS

Good Communicaton Skills

PROJECT DETAILS

• Elewen — January-2026 - April-2026

Project Description: Full-stack event planning platform connecting clients with in-house event planners and vendors across multiple event categories. Strapi v5 headless CMS for managing event types, blogs, testimonials, and portfolio content with Cloudinary image CDN integration. Custom Express.js API with Prisma ORM for bookings, payments, planner leads, and vendor management. Containerised multi-service architecture using Docker Compose with NGINX reverse proxy for production deployment.
Responsibilities: Requirement analysis, architecture design, database schema design across 58+ tables spanning CMS and custom API layers. Built reusable React component library with Framer Motion animations, React Query data fetching, and static fallback strategies for offline resilience. Integrated Cloudinary image optimisation pipeline, Strapi CMS content workflows, and CI/CD deployment pipeline. Collaborated with client on UI/UX iterations, feature prioritisation, and content management workflows
Technologies: React.js, Vite, TypeScript, Tailwind CSS, Strapi v5 CMS, PostgreSQL, Prisma ORM, Express.js, Docker, Cloudinary, Framer Motion, React Query, NGINX, REST APIs, GSAP, Lenis, CI/CD, AWS EC2 Authentication Systems, Foundry
Industry: IT Services Software

• Tank Pros

Project Description: Designed and developed a dropship e-commerce platform with multi-supplier order management, fulfilment, payments, and admin workflows. Integrated MS Dynamics 365 as a CRM/ERP layer to sync customer, supplier, order, invoice, payment, and fulfilment data for centralized operational visibility. Built scalable REST APIs and backend sync workflows for Stripe payments, Xero accounting, and MS Dynamics 365 data synchronization.

Responsibilities: Requirement analysis, architecture planning, database design, API development, testing, debugging, and deployment. Developed backend modules using Node.js, Express.js, TypeScript, Prisma, PostgreSQL, Redis, and AWS services. Worked on MS Dynamics 365 integration for CRM/ERP data sync, reporting support, and operational tracking.

Technologies: React.js, Python, Node.js, TypeScript, Express.js, Prisma, PostgreSQL, Redis, Docker, AWS, GitHub Actions, Stripe, Xero, MS Dynamics 365, REST APIs, CI/CD

Industry: IT Services Software

EMPLOYMENT HISTORY

• Full Stack AI Developer

Description: Handle team , have worked on various projects

EDUCATION

• Bachelors degree in AI/ ML from Dr. A.P.J. Abdul Kalam Technical University 2015 - 2019

LANGUAGES

• English - advanced
