• Informatica MDM.	1 years
• ORACLE SQL Server	1 years
• ORACLE Database.	1 years
• Core JAVA	1 years
• MS SQL Server	1 years

SOFT SKILLS

Problem solving, Adaptability

PROJECT DETAILS

• E-Commerce.

Project Description: E-commerce (electronic commerce) is the buying and selling of goods and services, or the transmitting of funds or data, over an electronic network, primarily the internet. These business transactions occur either as business-to-business (B2B), business-to-consumer (B2C), consumer-to-consumer or consumer-to-business.
Responsibilities: Achieving the master copy of the data by creating the stage table, landing table and base object table using the schema diagram. Defined system trust validation rules for the base object columns. Getting the Best Version of Truth by lookups and mapping. Using the match and merge process to remove the duplicate records and creating the queries, query groups and packages in the MDM hub console.
Technologies: Informatica MDM Hub console, Oracle sql server, E360 Framework.
Industry: Ecommerce
