Adaptable Fullstack Engineer with an AI-driven mindset, prioritizing career growth over a mere job. Proficient in Python, React, Django, SQL, and ERPNEXT, adept at building scalable software and leveraging DB technologies, AWS, IBM Cloud, DevOps, and Agile/Scrum methodologies. IBM-certified in Backend, DevOps, and Data Science. Actively seeking a cutting-edge role that challenges boundaries and fuels innovation.

INDUSTRIES: Information Technology, Finance, Pharmacy

TECHNICAL SKILLS

• Python	5 years
• SQL	5 years
• NoSQL	2 years
• React	2 years
• Docker	2 years

SOFT SKILLS

Leadership, Time management, Teamwork, Communication, Critical thinking, Problem-solving, quick learner, Arabic Speaker

PROJECT DETAILS

• Ticketing System October-2022 - October-2023

Project Description: This project facilitates the seamless acquisition of IT services from an IT company, benefiting both individual clients and corporate entities. By leveraging cutting-edge technologies, this platform replaces conventional paper-based processes, resulting in significant time and cost savings for the company.
Responsibilities: Led agile development, created customizable service request software, and contributed to front-end development using React. Deploy mobile and web applications to production (IOS, Android, Laravel, and React). Convert the stakeholder's requirements into features in the application.
Technologies: Laravel, ReactJS, MySQL, Nginx, Flutter
Industry: Information Technology

• Kuwait National Funds October-2021 - October-2023

Project Description: The National Fund for Small and Medium Enterprise Development was created by the Government in April 2013. Its main goal is to help young people, fight unemployment, and boost the economy in Kuwait. The fund provides money (up to 80% of the capital) for small and medium-sized projects proposed by Kuwaiti citizens. With a capital of KD 2 billion, the fund aims to support entrepreneurs and create opportunities for economic growth in Kuwait.

Responsibilities: I collaborated closely with both the Backend and Frontend teams as a Junior Django Developer at Active Project Company (Outsource) to develop a robust and cohesive system. This involved building and seamlessly integrating Django with Vue Js, ensuring smooth communication between the server-side and client-side components. Additionally, I took charge of writing comprehensive unit tests to guarantee the reliability and functionality of the implemented solution.

Technologies: Python, Django, MySQL, Jinja, VueJs

Industry: Finance
