PROJECT DETAILS

• Astravest October-2021 - November-2023

Project Description: Invest in housing projects with as low as ₦5,000. Astravest gives you access to stable investment options plus information you need to trade. Our asset classes have returned an average of 21% in the last one year

Responsibilities: Stayed on the bleeding edge of Flutter and mobile development, championing the adoption of new technologies, patterns, and tools. Lead the end-to-end development of advanced mobile applications using the Flutter framework. Collaborated with a multidisciplinary team of designers, product managers, and backend developers to ideate, architect, and deliver exceptional user interfaces and experiences. Engineered the flow of investing in real estates and fixed incomes using Golang as the backend service and interacting with the REST API using dio package in Dart to provide information to the interface. Transformed intricate design mockups into meticulously crafted, pixel-perfect user interfaces with dynamic animations and seamless transitions.

Technologies: Flutter, Dart, Firebase, REST APIs
