+91 9820045154 | hr@augmntx.com

8.3 years of experience in Ruby on Rails. ● Ability to write clean code compatible with Rubocop and achieve at least 70% of test case coverage using Rspec. ● Follow different design patterns (Service Objects, View Objects, Query Objects, etc.), and principles (SOLID, KISS, Lod) to make code more readable and maintainable. ● Optimize API's. ● Experience in Using OpenAI Gem to evaluate responses provided by learners. ● Cached the Entire website on Cloudflare and implemented caching logic. ● Experience in upgrading Rails-based applications- Upgraded from Rails 4 to Rails 6. ● Create API docs using Swagger and API cheat sheet for frontend developers. ● Discuss requirements with the client, propose and implement solutions. ● Implemented stripe payments. ● Sync google calendar events and send consumer's recommendations of restaurants based on it. ● Have used Savon gem for sending SOAP requests. ● Configured and deployed rails application on AWS(EC2) using Phusion passenger and Nginx. ● Implemented logging of user actions using public_activity gem for the admin.

INDUSTRIES: Healthcare, Education

TECHNICAL SKILLS

• Ruby on Rails	8 years & 3 months
• HTML	8 years & 3 months
• CSS	8 years & 3 months
• MySQL	8 years & 3 months
• jQuery	8 years & 3 months

SOFT SKILLS

Very Good Communication

PROJECT DETAILS

• CareCloud

Project Description: CareCloud, Inc. is a leading healthcare technology company with a comprehensive suite of proprietary, cloud-based solutions for growing healthcare organizations. CareCloud (Nasdaq: CCLD, CCLDP, CCLDO), formerly known as MTBC, delivers the most comprehensive technology-enabled solutions to healthcare organizations of all sizes, spanning a wide range of specialties, all across the country

Responsibilities: Analyze different issues reported, interact with the reporter and add an estimate. ● Fix urgent bugs which could be code fixes, data fixes or optimization tasks as in many cases the API’s are slow and it gets timeout and we need to optimize them.In some cases there are duplicate data entries, we have to figure out the root cause and fix them. In many cases bugs are replicable on production only and we have to fix them

Technologies: Rails 3.2, Ruby 2.1, PostgreSQL, RubyAMF, Forticlient VPN, Charles for logs, newrelics

Industry: Healthcare

• LeverED

Project Description: LeverED helps students at every level engage with a dynamic, interactive curriculum with appropriate support, enrichment, and authentic challenge. Progress is automatically assessed, personalizing each student's learning
Responsibilities: Used Rspec to write test cases for all the API’s being used and also for model’s and controllers. ● Had to provide different curricula with random values. ● Upgraded this project from rails 4 to rails 6. ● Some bug fixes and new API’s for different curriculum. ● Used CircleCI for validation of test cases before the code was merged to the main branch
Technologies: Rails 4, rails 6, Ruby 2.0, and PostgreSQL
Industry: Education

• Ametros Learning

Project Description: Ametros Learning delivers AI-powered practice-based learning modules that help students and professionals master in-demand soft skills through interactive, simulated workplace scenarios. Ametros Learning provides an online space for virtual experiential learning and assessment. In each module, learners take on a high-stakes role and assignment within a fictitious organization and manage their way through complex work-related challenges like dealing with a demanding supervisor, a distracted peer, or an emotionally charged client.
Responsibilities: Used Rspec to write test cases for all the API’s being used. ● Implemented admin panel where different data types can be stored and provided API for different types of data. ● Implemented a different grading system based on scores.
Technologies: Rails 6, Ruby 3.0, and PostgreSQL
Industry: Education

EMPLOYMENT HISTORY

• Senior Developer — July-2023 - November-2023

Description: Worked as Senior Developer

• Freelancer — May-2022 - June-2023

RR Auto Components
Description: Worked as Freelancer

• Developer — May-2015 - April-2022

Kiwitech
Description: Worked as Developer

EDUCATION

• Bachelors degree in Computer Science from IGNOU — 2011 - 2014

LANGUAGES

• English - advanced
