Having around 9 years of experience in developing Software Applications as well as providing production support using Java / J2EE technologies. Good working exposure in Software Application Development based on J2EE enterprise solutions using CoreJava,Java8,JSF,Spring,SpringBoot,RestfulWebservices,MicroServices Architecture and Hibernate. Strong technical skills & good exposure to Java. Good communications and inter-personal skills.

INDUSTRIES: Manufacturing, Automobile, Retail

TECHNICAL SKILLS

• Java	9 years & 10 months
• J2EE	9 years & 10 months
• Spring Boot	9 years & 9 months
• Hibernate	9 years & 6 months
• Struts	9 years & 6 months
• Microservices	9 years & 6 months

SOFT SKILLS

Very Good Communication

PROJECT DETAILS

• XPS, SJC

Project Description: XPS stands for eXternal Production System. The application has one major function: communicating with installations and screw joint controllers. XPS sends task files to the installations/Screwjoint controllers and stores the feedback that they send back.
Responsibilities: Developed Installation Microservices using Spring Boot. Implemented JPA repository interface. Implemented Controller and Service layer efficiently. Implemented the basic security(Spring Security) for the API.
Technologies: Java,Spring Boot, Hibernate, Microservices,Oracle,MySql,Sql,Maven,Github
Industry: Manufacturing

• ATACQ:

Project Description: ATACQ manages all quality concerns on cars. To do this, it has enrolled a broad quality system with a high number of transactions with which end users can follow up and manage quality issues on cars on a VCC site.
Responsibilities: Implemented Rest Microservices using Spring Boot. Wrote controller and service classes. Implemented JPA repository interface. Completed the testing of the API from different perspective and with different input parameter.
Technologies: Java, Spring Boot, Hibernate,Oracle,MySql,Sql,Maven,Github
Industry: Automobile

• HPRangeWeb

Project Description: IHP2 is a retail management tool to develop and design kitchen designs by user and see the shopping list in Graphical User Interface. The purpose for this is to support the customers to design their kitchens using web browsers, save designs and to finalize the shopping list .IHP2 has different flows based on the different functionalities. HPRangeWeb is an application which prepares the data which has to be displayed in the Graphical user interface.

Responsibilities: Code changes for new requirement or CR. Writing DB script using SQL and PLSql for new changes Resolving application issues.

Technologies: Java,Spring,SpringBatch,JPA,Hibernate,sql,
Jenkins,Maven,GitHub,WebSphere,Clearcase,Clearquest.

Industry: Retail

• TIHP

Project Description: IHP2 is a retail management tool to develop and design kitchen designs by user and see the shopping list in Graphical User Interface. The purpose for this is to support the customers to design their kitchens using web browsers, save designs and to finalize the shopping list .IHP2 has different flows based on the different functionalities.

Responsibilities: Code changes for new requirement or CR. Writing DB script using SQL for new changes Resolving application issues.

Technologies: Java,Spring,Spring Boot,Hibernate,Jpa

Industry: Retail

EMPLOYMENT HISTORY

• Senior Consultant — January-2019 - March-2023

Description: Worked as Senior Consultant

• Senior Software Engineer — August-2018 - November-2018

Wipro Technologies (thru eTeamInfoServices)

Description: Worked as a Senior Software Engineer

• Senior Software Engineer — March-2018 - May-2018

SLK Software(Thru Artech)

Description: Worked as a Senior Software Engineer

• Senior Software Engineer — April-2017 - December-2017

Robert Bosch(Thru Artech)

Description: Worked as a Senior Software Engineer

• Software Engineer — September-2013 - March-2017

MindsetIT Solutions

Description: Worked as a Software Engineer

EDUCATION

• Bachelors degree in Telecommunication from VTU — 2009 - 2013

LANGUAGES

• English - advanced
