INDUSTRIES: Infrastructure management, Hospitality, Education

TECHNICAL SKILLS

• Design Patterns	9 years & 10 months
• MySQL	9 years & 10 months
• PostgreSQL	8 years & 5 months
• Ruby on Rails	7 years & 5 months
• Microservices	7 years & 5 months

SOFT SKILLS

Good Communication Skills

PROJECT DETAILS

• NSID Engine — December-2020 - May-2021

Project Description: NSID is a New Secure Internal Distribution also called as NDS Distribution. Copied product and image builds securely from source location to destination Location. Tiberium is Build Infrastructure. NSID handles queueing and priority builds using Aspera Protocol.
Responsibilities: ➢Queue Creation with Different Sites. ➢Record Sparse Image Generation. ➢RSpec and Capybara used Behavior Driven Development to develop code. ➢Upgraded to Rails 5 from Rails 4.2. ➢Building services using REST API.
Technologies: Ruby 2.6, Rails 6.1, MySQL, RSpec, JavaScript, Sidekiq, GraphQL.
Industry: Infrastructure management

• FMS Engine — May-2021 - July-2023

Project Description: FMS Engine helps our clients empower individuals with Home and Community Based services. Basically, we are helping People who are aging or have disabilities, thrive, and flourish in their homes and communities, instead of in nursing homes or institutions.
Responsibilities: ➢Deploying different modules in staging and production (Users, Settings, Enrollment, Communications, Consumers, Billing, Eligibility, Communications) ➢New Client Setup in staging and Production for different modules for different clients. ➢Configured and updated clients' settings in fms config module. ➢RSpec used Test Driven Development to develop code. ➢Solved accessibility Issues. ➢Maintained a legacy system that process workflows for multiple clients.
Technologies: Ruby 3.2, Rails 7, MySQL, PostgreSQL, RSpec, JavaScript, React
Industry: Hospitality

• Story weaver February-2020 - April-2020

Project Description: Story Weaver is a digital gateway to thousands of richly illustrated, open licensed children's stories in mother tongue languages. It is also a first-of-its-kind platform that provides easy-to-use tools to create, adapt, and translate new stories for children. It's the ideal place for parents, educators, writers, translators, and illustrators to come together to weave new stories for children and help to create a pathway to nurture the next generation of readers.
Responsibilities: ➢Implemented validations using Active Record Classes. ➢Rspec and Capybara used Behavior Driven Development to develop code. ➢Build CMS pages using “Comfortable Mexican Sofa” CMS engine in Admin section and displayed in dynamic navbar links in the home page. ➢Implemented Document Image and Videos upload by using Paperclip Gem.
Technologies: Ruby 2.5, Rails 5.2, MySQL, RSpec, JavaScript, React.js.
Industry: Education
