• Node.js	3 years & 1 months
• Machine Learning	1 years & 1 months

SOFT SKILLS

Teamwork, Communication, Critical thinking, Problem Solving, Development

PROJECT DETAILS

• Crwn Clothing

Project Description: Built an E-Commerce cloth selling platform using ReactJs, NodeJs, Firebase
Responsibilities: In my role as a software developer and project manager for the e-commerce platform, I was responsible for overseeing the technical implementation using ReactJS, NodeJS, and Firebase. This involved leading the development team, ensuring the efficient integration of technologies, and managing the project timeline and deliverables. Additionally, I collaborated with stakeholders to align the platform with business objectives and user requirements, ensuring a successful and impactful e-commerce solution.
Technologies: React.js, NodeJs, Firebase
Industry: Ecommerce

• WhatsDown

Project Description: Built a messaging app using where users can login and communicate with those who are a part of the community
Responsibilities: As a software developer and project manager, my responsibilities in building an e-commerce platform using ReactJS, NodeJS, MongoDB, and Socket.io included overseeing the technical implementation, leading the development team, ensuring seamless integration of technologies, and managing project timelines and deliverables. I also collaborated with stakeholders to align the platform with business objectives and user requirements, ensuring a successful and impactful e-commerce solution.
Technologies: ReactJs, NodeJs, MongoDB, Socket.io
Industry: Social Network

EDUCATION

• Bachelors degree in Software Engineering from University Of Agriculture, Faisalabad — 2021 - 2025

LANGUAGES

• English - native
