With over 9 years of experience and a strong background in iOS development, I have successfully completed over 100 projects. My skills encompass a wide range of programming languages, including Swift, Objective C, Xcode 5.4, Mac 8.0, WatchOS, Siri Kit, Socket.io, WebRtc, Extensions: Intents, Keyboard, Share, etc. Additionally, I have expertise in designing frameworks such as UIKit and SwiftUI, along with proficiency in various other technologies. As an iOS developer, I have not only honed my technical abilities but also gained valuable leadership experience. I have been entrusted with leading teams and guiding them toward successful project completion. My exceptional team management skills, coupled with my expertise in iOS development, allow me to efficiently coordinate efforts, foster collaboration, and achieve outstanding results. I pride myself on staying up-to-date with the latest advancements in the field, consistently enhancing my skills, and exploring new technologies. This dedication ensures that I bring cutting-edge solutions to the projects I undertake, delivering the highest quality results.

INDUSTRIES: Non Profit, Finance, Software and Platforms

TECHNICAL SKILLS

• Objective C	9 years & 4 months
• UIKit	9 years & 5 months
• Swift	8 years & 3 months
• Xcode	8 years & 6 months
• SwiftUI	5 years

SOFT SKILLS

Team Lead, Problem-solving, Time management, Critical thinking, Communication

PROJECT DETAILS

• Calvary Temple Foundation

Project Description: The application is built for a non-profit organization to perform and view users' activity and take various types of donations. The key features of the application are as follow: log-in, Signup, Forgot Password, Settings, Profile, Sponsorship Programs, Membership Model, QR code view & scan feature, Push / In-app notifications, View video, audio, and text messages from Owner's desk, Guest user role, Services List, apply for services, etc.

Responsibilities: Provide technical guidance and expertise to the team, serving as a subject matter expert in iOS development. Offer insights on best practices, architectural decisions, and code reviews to ensure high-quality deliverables. Identify and resolve technical issues and bugs within the iOS application. Conduct thorough testing and debugging to maintain a stable and reliable product. Collaborate with the QA team to ensure comprehensive test coverage.

Technologies: Swift, UIkit, Mixpanel Integration, Firebase, Crash Analytics, Push notifications etc

Industry: Non Profit
