I love building web. Having three years of experience in web development using JavaScript, React, Redux, SCSS, Vue, Firebase, Material UI, Chakra UI, GraphQL, Hasura and many more. Passionate about learning new technologies. Finding new solutions to make the web faster

INDUSTRIES: Ecommerce

TECHNICAL SKILLS

• React	3 years & 4 months
• CSS	3 years & 6 months
• JavaScript	2 years & 6 months
• Next JS	1 years
• TypeScript	1 years

PROJECT DETAILS

• Barterrup June-2021 - May-2023

Project Description: Barterrup is a platform with a simple concept: to provide individuals with an avenue where they can exchange their stuff and belongings with each other. The co-founder of this project, Muhammad Arif, had an ambitious vision in mind - a utopian model of consumption where whenever an individual wants or needs something, they don't directly go to the current standard of add to cart and checkout, but instead, ask their neighbours and friends for the item they require.
Responsibilities: I worked as a junior frontend developer on this startup project for 2 years. Barterrup Is A Free-To-Use Platform Where People Can Barter, Giveaway And Ask For Goods And Services Without Using Money
Technologies: Nuxtjs
Industry: Ecommerce

• Super Saver Mama September-2022 - April-2023

Project Description: Super Saver Mama, a coupon aggregator, works for legitimacy with vigorous zeal. We bring fresh promo codes and discounts from brands all over the world. At Super Saver Mama, we work daily to bring the most innovative coupon codes, discount codes, deals and now even cashbacks for frugal customers. If you are not aware of these discounted coupons then you are missing something important in your life.
