+91 9820045154 | hr@augmntx.com

I am a highly skilled blockchain & Web3 professional with 8+ years of hands-on experience, adep at driving innovation and delivering impactful solutions. Proven success in blockchain development, smart contract creation, DApps, and crypto ecosystem integrations.

INDUSTRIES: Gaming, Blockchain

TECHNICAL SKILLS

• Blockchain	8 years & 4 months
• Solidity	8 years & 4 months
• Dapps	8 years & 4 months
• Node.js	8 years & 4 months
• smart contracts	8 years & 4 months

PROJECT DETAILS

• Casino Games on Blockchain — November-2022 - October-2023

Project Description: Comdex is an interchain DeFi infrastructure layer housing a suite of composable solutions on-chain
Responsibilities: Led the development of a variety of casino games, ensuring fairness and transparency through blockchain technology. • Implemented rigorous security measures, successfuly eliminating vulnerabilities. • Attracted a diverse user base, contributing to platform growth.
Technologies: Blockchain
Industry: Gaming

• Ethereum trading platform — June-2020 - October-2022

Project Description: Persistence is an app chain for Liquid Staking powering an ecosystem of DeFi applications focused on unlocking the liquidity of staked assets.
Responsibilities: Created Ethereum trading platform (stake/unstake)ni React.js, generating $1.5 million in rewards. • Built a cross-project JS library for internal use. • Led blockchain feature development, employing user story analysis and robust architecture design, fostered team growth through peer code reviews, mentorship, and constructive feedback, while maintaining clarity and alignment via design documentation and architectural reviews.
Technologies: React.js
Industry: Blockchain

EMPLOYMENT HISTORY

• Backend Engineer — November-2023 - January-2024

Description: Unlimit is a card processing provider with over 150 payment methods • Responsibilities - Develop the business logic in smart contracts for various payment methods. • Integrate the backend with the frontend. • Create and Integrate the backend APIs.

• Tech Lead — November-2022 - October-2023

Comdex.One
Description: Comdex is an interchain DeFi infrastructure layer housing a suite of composable solutions on-chain • Responsibilities- Led the development of a variety of casino games, ensuring fairness and transparency through blockchain technology. • Implemented rigorous security measures, successfuly eliminating vulnerabilities. • Attracted a diverse user base, contributing to platform growth

• Sr. Blockchain Developer June-2020 - October-2022

Persistence Labs

Description: Persistence is an app chain for Liquid Staking powering an ecosystem of DeFi applications focused on unlocking the liquidity of staked assets. Responsibilities - Created Ethereum trading platform (stake/unstake) in React.js, generating $1.5 million in rewards. • Built a cross-project JS library for internal use. • Led blockchain feature development, employing user story analysis and robust architecture design, fostered team growth through peer code reviews, mentorship, and constructive feedback, while maintaining clarity and alignment via design documentation and architectural reviews.

• Project Engineer September-2015 - June-2020

Wipro Technologies

Description: Wipro empowers digital transformation with innovative technology and IT consulting. Responsibilities- Developed and deployed Solidity smart contracts for various blockchain applications. • Delivered blockchain-based supply chain solutions, enhancing transparency and traceability. • Provided technical consultation to clients and performed code audits. • Mentored junior developers in blockchain technologies.

CERTIFICATION

• by 0

EDUCATION

• Masters degree in Computer Science from VIT 2011 - 2019

LANGUAGES

• English - advanced
