An ambitious, creative and experienced web developer with 4 years of extensive experience in all phases of software application design and development. Proficient in crafting engaging and responsive user interfaces using a comprehensive skill set that includes React JS, Redux, JavaScript (ES6), HTML5, CSS3, Material UI, Git, Webpack and Bootstrap.

INDUSTRIES: Retail, Education

TECHNICAL SKILLS

• React	4 years
• JavaScript ES6	4 years
• CSS3	4 years
• HTML5	4 years
• AWS	4 years
• Github	4 years
• Redux	2 years & 6 months
• Node.js	1 years & 2 months

SOFT SKILLS

quick learner, Teamwork, team player, adaptability, Communication

PROJECT DETAILS

• Marketplace application — September-2022 - November-2023

Project Description: n the dynamic landscape of web development, I led a project focused on elevating user experience and optimizing performance. Leveraging a robust tech stack and industry-best practices, our team successfully implemented key features and achieved significant performance improvements.
Responsibilities: Developed the user interface using ReactJS, creating an intuitive and captivating user experience. The development of the project using webpack, with a strong focus on scalability and a maintainable codebase. Achieved native navigation by using react-native-navigation, created a fork for adding features to fit design needs. Used Redux Framework architecture for integrating the data with ReactJs Application. Optimized the performance of the web application upto 30% faster. Worked with Jest unit test framework to write unit tests for JavaScript code. Experience with common front-end development tools such as Babel, Webpack, and NPM.
Technologies: react, redux, java springboot, graphql,
Industry: Retail

• assessment tests platform August-2019 - June-2022

Project Description: In our pursuit of enhancing user experience and platform functionality, I spearheaded a project focused on seamlessly facilitating online test writing and submission. Through the strategic implementation of React JS and Redux for Single Page Application (SPA) development, we achieved a user-friendly and interactive platform.

Responsibilities: Facilitated seamless online test writing and submission for users, enhancing the platform's user-friendliness. Developed user interface by using the React JS, Redux for SPA development and implemented client side Interface using React JS. Designed interactive dashboards with charts using Material UI. Created forms to collect and validate data from the user in HTML and JavaScript. Resolved various CSS compatibility issues and did research for CSS3 to implement and for our framework. Conducted unit testing to ensure code robustness and platform reliability while employing asynchronous data handling techniques for dynamic interfaces.

Technologies: react, nodejs, mangodb

Industry: Education

EMPLOYMENT HISTORY

• Frontend developer August-2022 - November-2023

Description: ● Developed the user interface using ReactJS, creating an intuitive and captivating user experience. ●The development of the project using webpack, with a strong focus on scalability and a maintainable codebase. ● Achieved native navigation by using react-native-navigation, created a fork for adding features to fit design needs. ● Used Redux Framework architecture for integrating the data with ReactJs Application. ● Optimized the performance of the web application upto 30% faster. ● Worked with Jest unit test framework to write unit tests for JavaScript code. ● Experience with common front-end development tools such as Babel, Webpack, and NPM.

• UI UX Designer September-2019 - June-2022

varsatile software

Description: Facilitated seamless online test writing and submission for users, enhancing the platform's user-friendliness. ● Developed user interface by using the React JS, Redux for SPA development and implemented client side Interface using React JS. ● Designed interactive dashboards with charts using Material UI. ● Created forms to collect and validate data from the user in HTML and JavaScript. ● Resolved various CSS compatibility issues and did research for CSS3 to implement and for our framework. ● Conducted unit testing to ensure code robustness and platform reliability while employing asynchronous data handling techniques for dynamic interfaces.

EDUCATION

• Bachelors degree in Engineering from Anna 2010 - 2014

LANGUAGES

• English - advanced
