• Angular	1 years & 1 months
• React	1 years & 1 months
• .NET	1 years & 1 months
• Asp.Net	1 years & 1 months
• SQL Server	1 years & 1 months

SOFT SKILLS

Communication, Teamwork, Problem-solving

PROJECT DETAILS

• ATS January-2022 - May-2023

Project Description: As an Applicant Tracking System (ATS) specialist, you will be responsible for designing, implementing, and maintaining software systems that automate the recruitment process. Your role will involve working closely with HR managers, recruiters, and other stakeholders to ensure that the ATS is effective in identifying, tracking, and managing candidates throughout the hiring process.
Responsibilities: Collaborating with HR managers, recruiters, and other stakeholders to gather and analyze requirements. Designing, implementing, and maintaining ATS software systems. Configuring the ATS to meet the specific needs of the organization. Integrating the ATS with other HR systems (e.g., payroll, performance management). Providing training and support to recruiters and other users of the ATS. Staying up-to-date with emerging trends and technologies in ATS development.
Technologies: C#, HTML, CSS, Bootstrap, JavaScript, MS SQL Server
Industry: Human Resources
