• JavaScript ES6	3 years & 6 months

SOFT SKILLS

Teamwork, Communication, Critical thinking, Problem-solving, Time management

PROJECT DETAILS

• Social Media Analytics — August-2022 - November-2023

Project Description: Any marketers or agencies can leverage this innovative listening platform to work smarter, not harder when it comes to managing and optimizing various social media campaigns.
Responsibilities: Multiple responsibilities including leading 3 engineers in implementing new feature called "Competitor Insight"
Technologies: React, Node, AWS
Industry: Social Media

• eCommerce app — August-2016 - December-2020

Project Description: As the projects evolved, the scope of work naturally expanded as the client wanted us to take care of more features.
Responsibilities: The declared aim was to get from native to React Native gradually so that the app could work well at all times, and the client could continue its maintenance and releases. Another objective was to create one design codebase for both platforms, Android and iOS, and refresh the app.
Technologies: React-native, Next, C#, Java, NodePython
Industry: Ecommerce
